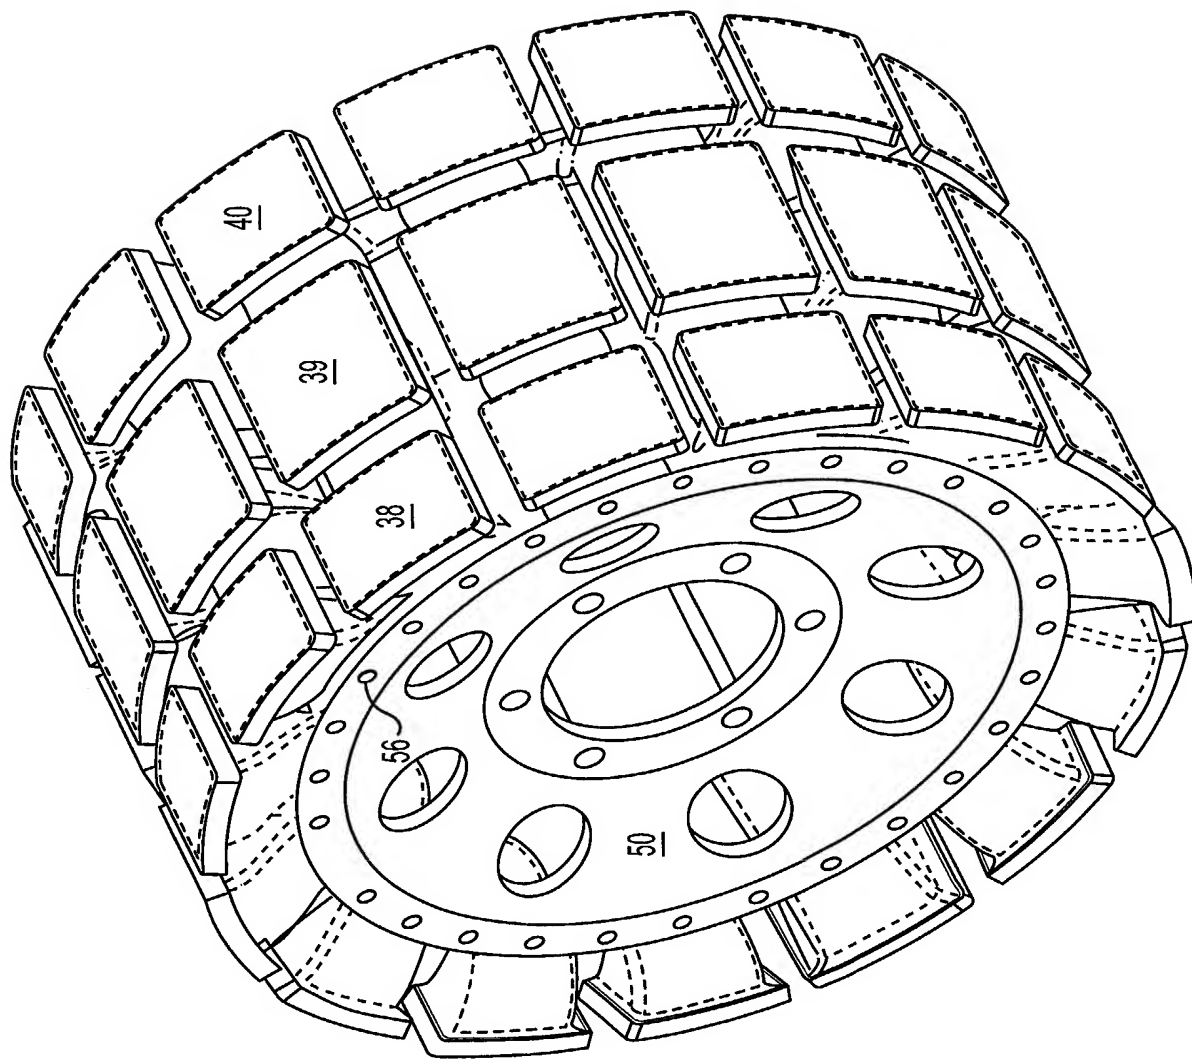

Fig. 5

A perspective view of a curved, segmented structure 20. The structure is composed of multiple segments arranged in a circular pattern. The segments are labeled 21, 22, 23, 24, 25, 26, and 27. The segments are arranged in a grid-like pattern, with each segment having a curved, rectangular shape. The segments are connected by a series of lines, forming a mesh-like structure. The overall shape is a curved, cylindrical or bowl-like structure.
